

**Pyramid Support at Home Activity Plan**

**Activity: Tic Tac Toe**

**Description:** This lesson describes some simple ways to play a more interactive game of tic tac toe with your learner. This version of tic tac toe gives options for physically manipulating a bowl or plate as the marker, eliminating the need to handwrite.

**Materials:** Paper, paper bowls or plates OR regular bowl or plates, marker, balls or a few similar toys or items that could be a replacement for X and O

**POTENTIAL LEARNING OPPORTUNITIES** – You DO NOT need to do these all at once. Remember you can run the activity multiple times and focus on the same or different learning opportunities each time you do the activity. Take a look below or brainstorm your own learning opportunities and pick a few to focus on when working with your learner.
